Subject: Condo Project

To Whom It May Concern,

Due to previous commitments I am not able to join you for the discussion this evening.

My name is Brian P. Devantier, a fifteen year enthusiastic resident of Norwich and it's revival. Holding a Bachelor of Science Degree in Environmental Design & Urban Planning from SUCB of Buffalo has helped me to understand that development projects can not only meet but exceed the requirements of the Wetlands Commission. The project will help to improve the environment for indigenous plants and eradicate invasive species. The project moreover, will increase the tax base with the help of reliable and responsible new homeowners.

Sincere Regards,

Brian P. Devantier
